

LSAT Study Plan

12-week preparation route

Choose one schedule that fits your weekly time. Each combines the existing 12 lessons, 200 original foundation questions, 40 retrieval cards and 3 illustrated guides with free official LawHub practice. Work is assigned by day, with counted review time and specific checkpoints.

Version 2026-10-28 / Published 2026-10-28 / Free, no sign-up

Scope and review status

Original foundation planning for the current LSAT cycle through June 2027. Short site passages and linked teaching questions are not complete official tests; LawHub blocks use authentic free full tests. No score improvement, readiness or passing guarantee is made.

Author-checked ID/prerequisite references and exact schedule sums; independent agent review and learner validation are separate. Minutes are editorial estimates, not measured completion times.

Independent content review: peer checked. Qualified educator review: pending.

This is an original study resource, not an official examination, endorsement, score prediction or certification.

<https://openexam.site/exams/lsat/study-plan/>

Weekly study budget: 4 hours

- Protect 4 hours per week. Weeks 1, 5, 9, 11 include one uninterrupted 150-minute test block, so those weeks have fewer separate study sessions.
- This plan first-passes the 200 site questions through week 10, allowing delayed retrieval rather than doing the same full pool every week.
- Choose at most four free LawHub tests A–D for this one plan. Do not assume unlimited unseen free tests, and do not purchase Advantage to complete the schedule.
- Day 7 is rest or budget-neutral rescheduling. Minutes are planning estimates; approved timing accommodations or a slower learning pace require changing totals or extending the calendar.

Choose one duration

The three schedules are alternatives, not consecutive assignments. Choose the shorter plan only when its longer weekly blocks are realistic. Each week's final checkpoint is already part of the stated minutes. Day 7 is a rest day or a move of already budgeted work. Days without a listed task are rest or a budget-neutral move of already scheduled work; do not add another required session.

Plan	Weekly time	Total scheduled time	Official free full tests
4 weeks	8 hours /480 minutes	32 hours /1, 920 minutes	A in week 1;B in week 3;C in week 4
8 weeks	6 hours /360 minutes	48 hours /2, 880 minutes	A in week 1;B in week 4;C in week 7
12 weeks	4 hours /240 minutes	48 hours /2, 880 minutes	A in week 1;B in week 5;C in week 9;D in week 11

Use the correct cycle and the verified free route

For testing through June 2027, the multiple-choice LSAT has four 35-minute sections, with two scored Logical Reasoning sections, one scored Reading Comprehension section, and one unscored LR or RC section. A 10-minute intermission follows section two. Each practice-test block here counts 140 minutes of timed work plus that 10-minute break, not real-exam check-in, proctor re-entry, or device setup. Setup and review are separate tasks.

LSAC's official practice page lists four free full four-section PrepTests. Use a free LawHub account and choose tests marked free; a LawHub Advantage purchase is optional and not required by any schedule. Labels A–D are your own records for the chosen test identifiers, not invented official test numbers. If a test is already familiar, label it as a repeat rather than an unseen diagnostic. Free drill sets can also be revisited for a stated learning purpose.

LSAC has announced a format change from August 2027. These timing blocks are not that later format. If your planned test is August 2027 or later, check the linked official update before using this schedule. Approved timing accommodations likewise require recalculating blocks and weekly totals.

What the site task pool contains

All question, card, lesson and guide references point to existing LSAT objects. The 200 items are original foundation tasks: 131 LR and 69 RC, organized in 68 shared-stimulus teaching sets. Reading selections are shorter than full official passages, and several LR tasks deliberately reuse a stimulus to isolate different reasoning decisions. Completing this pool does not establish complete LSAT coverage.

Lesson	Prerequisite	Site questions	Cards
Separate support from the conclusion	None	9	4
Match the sample to the population	None	12	4
Compare causal explanations	structure	18	4
Preserve necessary and sufficient conditions	structure	17	4
Control quantities and scope	structure	21	4

Lesson	Prerequisite	Site questions	Cards
Test the relevant similarity	structure	6	3
Evaluate evidence rather than labels	structure	18	3
Match claim strength to evidence	structure	21	3
Expose the value and comparison in a recommendation	structure	9	3
Map a passage before collecting details	None	24	3
Infer carefully from the text	None	24	3
Compare positions without exaggerating disagreement	None	21	2

Use explanations and delayed retrieval

Before opening an explanation, record the item or official-test identifier, your choice, confidence, and the exact phrase or rule supporting it. After checking, distinguish a task-stem misread, premise/conclusion error, causal alternative, conditional reversal, quantity/scope error, unsupported reading inference, or timing decision. A correct guess and a justified answer should not be logged as the same event.

A reattempt is deliberately familiar. Its purpose is to reconstruct the reason after a delay, compare a plausible rival, or build a valid counterexample—not to manufacture a higher unseen-test score. Use official full tests separately to observe authentic presentation and stamina. Limited review blocks prioritize specified uncertainty flags; unresolved items stay on the log for the next review.

When a checkpoint reveals a gap, reallocate the stated minutes from review or drill time. Never silently shorten an official timed section or remove its break to make the schedule fit. If the available hours do not cover the needed repair, extend the calendar rather than call the gap mastered.

Original writing rehearsals

LSAT Argumentative Writing is a separate unscored requirement, not assessed by the site's multiple-choice pool. The official guidance describes 50 minutes for most test takers: 15 for analysis and 35 for writing. The following brief prompts are independently authored rehearsal material, not official LSAC prompts. A scheduled 65-minute writing task adds 10 minutes for public guidance and 5 for self-review; it does not submit the official assessment.

A university is considering a graduation requirement of 40 hours of community service. Perspective 1: Shared service can connect classroom learning with local needs and build civic responsibility. Perspective 2: Students who already work or provide family care may face an unequal burden from an unpaid requirement. Perspective 3: The university could support voluntary, paid or course-linked projects instead of mandating identical hours. Take a position on whether the university

should adopt the requirement. Address at least one competing perspective and explain the conditions or evidence relevant to your judgment.

Use 15 minutes to identify the central policy choice, underlying values and strongest counterargument.

Use 35 minutes to write a clear position with reasons, a fair response to another perspective, and any relevant qualification.

Use the final 5-minute self-review to mark the thesis, one evidence-to-claim connection, and one substantive response to a counterargument.

Answer: There is no single correct policy position. Check whether the reasons support the stated position, the competing view is represented fairly, and the conclusion preserves its own conditions.

A city must allocate a limited public grant between a new cultural center and flood-resilience improvements. Perspective 1: A cultural center could broaden participation and support local employment. Perspective 2: Reducing flood risk protects essential housing and services even if the benefits are less visible in an ordinary year. Perspective 3: Residents should have a meaningful role in deciding priorities, but expert risk information should constrain the choices offered. Take a position on how the city should make this allocation. Engage with a competing perspective and identify the tradeoffs and uncertainty that matter.

Use 15 minutes to distinguish the allocation decision, evidence about risk and competing public values.

Use 35 minutes to defend a position while addressing a serious alternative and its strongest reason.

Use 5 minutes to inspect whether your recommendation follows from your comparisons rather than merely listing benefits.

Answer: No official score or preferred allocation is supplied. A useful self-review checks the argument's support, treatment of the alternative, and acknowledgment of the relevant constraints.

Check progress without a score promise

Use the checklists to track completed work and the quality of explanations. Site accuracy cannot be converted into an official 120–180 score, and finishing a calendar does not establish readiness. Keep familiar-item results, authentic unseen-test results, writing rehearsals and the actual required writing assessment separate.

If your pace, access needs or unresolved errors differ from the assumptions, change the study calendar and record the new totals. The official sources govern test requirements and available free material; this resource supplies an original planning structure rather than official LSAC advice.

Establish official timing conditions and learn the structure prerequisite.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-12-week-1>

[] 01 / Day 1: format, free-interface orientation and structure lesson

30 minutes

Success check: Read the 9-minute structure lesson, note its premise/conclusion distinction, and use the remaining 21 minutes to verify the current cycle and select free tests A–D without viewing answers.

Lesson: [Separate support from the conclusion](#)

<https://www.lsac.org/lSAT/prepare>

Public guidance; free account/sign-in for LawHub practice, no subscription.

[] 02 / Day 2: official free PrepTest A, four sections plus the scheduled break

150 minutes

Success check: Work four 35-minute sections with a 10-minute break after section two: $140 + 10 = 150$ minutes. Do not inspect answers during the timed blocks. Record the actual test identifier, whether it was unseen, section timing, unanswered items, and confidence flags. This is practice, not an actual test administration; allow separately for setup and review.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Free LawHub account/sign-in. Select one of the four full tests marked free; LawHub Advantage is not required. Labels A–D in this plan are your own labels for different free tests, not official test numbers. If the chosen test was already attempted, record it as a familiar repeat, not an unseen diagnostic; no purchase is needed.

[] 03 / Day 3: blind review three priority items from familiar official test A

30 minutes

Success check: Before viewing the key, revisit three flagged items and write the supporting reasoning, plausible rival, and uncertainty. Record exact official item identifiers; this is review of the test already attempted.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

[] 04 / Day 4: compare official answers and close or retain the three review flags

30 minutes

Success check: Compare those same three items with official answer information available in the free account. Correct the reasoning log and retain unresolved questions for a later block; do not imply every item received deep review.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

Checkpoint

All 240 minutes are assigned. This first week gathers a baseline rather than requiring a claimed mastery level. Reserve a 150-minute continuous block even in this lower-hour plan.

If you need another pass

Keep unresolved baseline flags for later review. If setup takes longer, move a portion of the 60-minute review within this week or extend the calendar; do not silently omit a section or treat an interrupted run as standard.

Practise the structure lesson and learn sampling without rushing the inference.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lsat/study-plan/#plan-12-week-2>

[] 01 / Day 1: sampling lesson and all 12 sampling questions

45 minutes

Success check: Name respondents, selection process and target population before evaluating the generalization.

Practice: 12 assigned original questions.

Lesson: [Match the sample to the population](#)

[] 02 / Day 2: first-pass all 9 structure questions

35 minutes

Success check: Apply last week's structure lesson to the nine linked tasks. Identify a premise and conclusion before viewing any key.

Practice: 9 assigned original questions.

Lesson: [Separate support from the conclusion](#)

[] 03 / Day 3: 8 structure/sampling cards

20 minutes

Success check: Retrieve each front, then describe one sample bias and one intermediate conclusion in your own words.

Review: 8 assigned cards.

[] 04 / Day 4: free official Logical Reasoning drill and evidence log

45 minutes

Success check: Spend about half the block answering a manageable free Logical Reasoning drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsac.org/lsat/prepare/types-lsat-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 05 / Day 5: delayed reattempt — the distinction between identifying the conclusion and accepting its support

50 minutes

Success check: Reattempt these 10 familiar items without opening the key, then write the distinction between identifying the conclusion and accepting its support. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 10 assigned original questions.

Lesson: [Separate support from the conclusion](#)

Lesson: [Match the sample to the population](#)

[] 06 / Day 6: first skill checkpoint

45 minutes

Success check: Reattempt six familiar items and write the exact change needed to repair a weak sample inference. Carry concrete uncertainties into week 3.

Practice: 6 assigned original questions.

Checkpoint

First-pass site count: 21. The day 6 task already contains the 45-minute checkpoint.

If you need another pass

Use 20 minutes from week 3's review/drill allocation to revisit structure and Isat-022–Isat-027 if supporting statements are still mistaken for the conclusion.

Translate conditions and return to earlier arguments after a delay.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-12-week-3>

[] 01 / Day 1: conditional lesson and all 17 conditional questions

60 minutes

Success check: Translate rules in the licensed direction and distinguish requirements from permission. Explain one valid contrapositive and one invalid converse.

Practice: 17 assigned original questions.

Lesson: [Preserve necessary and sufficient conditions](#)

[] 02 / Day 2: argument workshop and guided contrasts

40 minutes

Success check: Read the 15-minute guide, then work three of its original contrasts without the explanation. The guide also previews quantity distinctions explored next week; mark those previews rather than claiming mastery.

Illustrated guide: [Find the missing connection: an argument workshop](#)

[] 03 / Day 3: delayed reattempt — a premise-consistent counterexample to an invalid inference

35 minutes

Success check: Reattempt these 9 familiar items without opening the key, then write a premise-consistent counterexample to an invalid inference. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 9 assigned original questions.

Lesson: [Separate support from the conclusion](#)

Lesson: [Match the sample to the population](#)

Lesson: [Preserve necessary and sufficient conditions](#)

[] 04 / Day 4: free official Logical Reasoning drill and evidence log

45 minutes

Success check: Spend about half the block answering a manageable free Logical Reasoning drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsac.org/lSAT/prepare/types-lsat-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 05 / Day 5: 4 conditional cards plus 4 earlier structure cards

20 minutes

Success check: First retrieve the four new conditional fronts; then revisit the four earlier structure fronts after the delay.

Review: 8 assigned cards.

[] 06 / Day 6: rule-direction checkpoint

40 minutes

Success check: Use these familiar conditional items to test whether each proposed counterexample respects every premise. Record unresolved permission or sufficiency errors.

Practice: 8 assigned original questions.

Checkpoint

First-pass site count: 38. Guide previews and familiar reattempts are not counted as new questions.

If you need another pass

If a counterexample breaks a premise, replace 20 minutes of week 4 review with Isat-010–Isat-015 and formal tasks Isat-130–Isat-131.

Separate group quantities from claim strength and observation limits.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lsat/study-plan/#plan-12-week-4>

[] 01 / Day 1: quantifiers lesson and 21 questions

60 minutes

Success check: Keep population sizes, counts and shares distinct; test a some/most/all claim with a compatible model.

Practice: 21 assigned original questions.

Lesson: [Control quantities and scope](#)

[] 02 / Day 2: evidence lesson and 21 questions

60 minutes

Success check: Separate what was detected from what was absent, and a practical benefit from a statistically detectable effect.

Practice: 21 assigned original questions.

Lesson: [Match claim strength to evidence](#)

[] 03 / Day 3: 7 quantifier/evidence cards

20 minutes

Success check: Retrieve all seven; give a new absolute-versus-relative example with its denominator.

Review: 7 assigned cards.

[] 04 / Day 4: free official Logical Reasoning drill and evidence log

45 minutes

Success check: Spend about half the block answering a manageable free Logical Reasoning drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsac.org/lsat/prepare/types-lsat-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 05 / Day 5: delayed reattempt — a scope-preserving conclusion rather than a stronger universal statement

30 minutes

Success check: Reattempt these 9 familiar items without opening the key, then write a scope-preserving conclusion rather than a stronger universal statement. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 9 assigned original questions.

Lesson: Preserve necessary and sufficient conditions

Lesson: Control quantities and scope

Lesson: Match claim strength to evidence

[] 06 / Day 6: quantities-and-evidence checkpoint

25 minutes

Success check: Explain one count/share distinction and one detection limit in these familiar items. Identify exactly what extra evidence a stronger claim would need.

Practice: 6 assigned original questions.

Checkpoint

First-pass site count: 80. Classify the type of inference failure, not just whether an answer matches the key.

If you need another pass

If scope or denominator errors persist, use 20 minutes of week 5's review for Isat-016–Isat-021. Never shorten testB's timed work or scheduled break.

Recheck authentic performance and prepare the causal framework.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-12-week-5>

[] 01 / Day 1: causation lesson and a two-explanation map

30 minutes

Success check: Read the 9-minute lesson and use 21 minutes to draw direct effect, reverse effect and common-cause possibilities for its example. The 18 linked site questions are first-passed next week.

Lesson: [Compare causal explanations](#)

[] 02 / Day 2: official free PrepTest B, four sections plus the scheduled break

150 minutes

Success check: Work four 35-minute sections with a 10-minute break after section two: $140+10=150$ minutes. Do not inspect answers during the timed blocks. Record the actual test identifier, whether it was unseen, section timing, unanswered items, and confidence flags. This is practice, not an actual test administration; allow separately for setup and review.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Free LawHub account/sign-in. Select one of the four full tests marked free; LawHub Advantage is not required. Labels A–D in this plan are your own labels for different free tests, not official test numbers. If the chosen test was already attempted, record it as a familiar repeat, not an unseen diagnostic; no purchase is needed.

[] 03 / Day 3: blind review three priority items from familiar official test B

30 minutes

Success check: Before viewing the key, revisit three flagged items and write the supporting reasoning, plausible rival, and uncertainty. Record exact official item identifiers; this is review of the test already attempted.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

[] 04 / Day 4: compare official answers and close or retain the three review flags

30 minutes

Success check: Compare those same three items with official answer information available in the free account. Correct the reasoning log and retain unresolved questions for a later block; do not imply every item received deep review.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

Checkpoint

This week totals 240 minutes and intentionally leaves no new site-question quota beside the lesson. Official testB is separate from site coverage.

If you need another pass

Record causal uncertainties from B for week 6. If B was already seen, label it familiar and compare reasoning conditions, not a supposedly new score.

Apply causal distinctions and evaluate sources without rejecting people.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lsat/study-plan/#plan-12-week-6>

[] 01 / Day 1: first-pass all 18 causal questions

55 minutes

Success check: Use last week's lesson. State the proposed cause and outcome, then classify each new finding's effect on that exact conclusion.

Practice: 18 assigned original questions.

Lesson: [Compare causal explanations](#)

[] 02 / Day 2: evaluation lesson and 18 questions

65 minutes

Success check: Distinguish relevant expertise, motive, circularity, origin and novelty. Reject a claim only for a reason that bears on its support.

Practice: 18 assigned original questions.

Lesson: [Evaluate evidence rather than labels](#)

[] 03 / Day 3: causal workshop and one reconstructed example

30 minutes

Success check: Read the 15-minute guide, then spend 15 minutes reconstructing a mechanism-versus-alternative comparison without looking at the worked solution.

Illustrated guide: [Compare explanations before choosing a cause](#)

[] 04 / Day 4: 7 causal/evaluation cards

20 minutes

Success check: Retrieve each front and create a new example of a possibly biased speaker making a potentially true claim.

Review: 7 assigned cards.

[] 05 / Day 5: free official Logical Reasoning drill and evidence log

35 minutes

Success check: Spend about half the block answering a manageable free Logical Reasoning drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsac.org/lSAT/prepare/types-lsat-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 06 / Day 6: cause-and-credibility checkpoint

35 minutes

Success check: Use the eight familiar items to explain what follows from a credibility concern and what still requires evidence. List one repair target for week 7.

Practice: 8 assigned original questions.

Checkpoint

First-pass site count: 116. Causal guide examples are deliberate reinforcement of the reasoning method, not an additional unseen pool.

If you need another pass

Use 20 minutes of week 7 transfer review for the causation lesson and Isat-004–Isat-009 if temporal sequence is still treated as proof of the full causal claim.

Finish LR foundations by comparing mechanisms and policy priorities.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-12-week-7>

[] 01 / Day 1: analogy lesson and 6 questions

40 minutes

Success check: Explain which case difference changes the mechanism rather than merely naming a surface difference.

Practice: 6 assigned original questions.

Lesson: [Test the relevant similarity](#)

[] 02 / Day 2: policy lesson and 9 questions

50 minutes

Success check: List the goal, cost horizon, constraint and best forgone alternative relevant to each recommendation.

Practice: 9 assigned original questions.

Lesson: [Expose the value and comparison in a recommendation](#)

[] 03 / Day 3: argument-workshop revisit for policy versus rule gaps

25 minutes

Success check: This is intentional reuse after four weeks. Identify one missing condition and one missing priority; explain why they need different repairs.

Illustrated guide: [Find the missing connection: an argument workshop](#)

[] 04 / Day 4: free official Logical Reasoning drill and evidence log

45 minutes

Success check: Spend about half the block answering a manageable free Logical Reasoning drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsac.org/lSAT/prepare/types-lsat-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 05 / Day 5: 6 analogy/policy cards

20 minutes

Success check: Retrieve each front and apply one opportunity-cost distinction to a new fictional policy choice.

Review: 6 assigned cards.

[] 06 / Day 6: delayed reattempt — a relevant comparison and a precise premise-to-conclusion connection

60 minutes

Success check: Reattempt these 16 familiar items without opening the key, then write a relevant comparison and a precise premise-to-conclusion connection. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 16 assigned original questions.

Lesson: Test the relevant similarity

Lesson: Expose the value and comparison in a recommendation

Lesson: Preserve necessary and sufficient conditions

Lesson: Evaluate evidence rather than labels

Checkpoint

All 131 site LR questions are now assigned. Completing these teaching sets does not supply the breadth or density of all official LR material.

If you need another pass

If analogy differences remain irrelevant, use 20 minutes from week 8 review to revisit Isat-028–Isat-030. If value priorities are unstated, revisit Isat-076–Isat-081.

Build short-passage maps before making inferences under pressure.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-12-week-8>

[] 01 / Day 1: passage-map lesson and first 12 mapping questions

50 minutes

Success check: Map the first four short selections; answer three linked questions per selection and distinguish the whole point from a true detail.

Practice: 12 assigned original questions.

Lesson: [Map a passage before collecting details](#)

[] 02 / Day 2: remaining 12 mapping questions

40 minutes

Success check: Map the remaining four short selections before the choices. Preserve the author's qualification in each one-sentence map.

Practice: 12 assigned original questions.

[] 03 / Day 3: free official Reading Comprehension drill and evidence log

45 minutes

Success check: Spend about half the block answering a manageable free Reading Comprehension drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsat.org/lSAT/prepare/types-lsat-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 04 / Day 4: 3 passage-map cards plus 3 earlier evidence cards

15 minutes

Success check: Retrieve the new passage-map fronts and delayed evidence-limit fronts. Explain which questions ask for role rather than truth.

Review: 6 assigned cards.

[] 05 / Day 5: delayed reattempt — the function of the specifically named statement, not another sentence nearby

45 minutes

Success check: Reattempt these 12 familiar items without opening the key, then write the function of the specifically named statement, not another sentence nearby. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 12 assigned original questions.

Lesson: [Map a passage before collecting details](#)

Lesson: [Match claim strength to evidence](#)

[] 06 / Day 6: mapping checkpoint

45 minutes

Success check: Use three familiar selections to draw maps and support a function answer with the exact targeted sentence. List one difference between these short texts and the official longer passages.

Practice: 9 assigned original questions.

Checkpoint

First-pass site count: 155. The official drill supplies authentic presentation without converting the shortened site passages into full-length simulation.

If you need another pass

If a role explanation describes the wrong sentence, replace 20 minutes of week 9 review with passage-map and Isat-144–Isat-146; read the targeted statement aloud before explaining its role.

Check an authentic full test and introduce text-supported inference.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-12-week-9>

[] 01 / Day 1: reading-inference lesson and a qualification checklist

30 minutes

Success check: Read the 9-minute lesson and use 21 minutes to distinguish stated, supported, contradicted and not established claims. First-pass inference questions follow next week.

Lesson: [Infer carefully from the text](#)

[] 02 / Day 2: official free PrepTest C, four sections plus the scheduled break

150 minutes

Success check: Work four 35-minute sections with a 10-minute break after section two: $140+10=150$ minutes. Do not inspect answers during the timed blocks. Record the actual test identifier, whether it was unseen, section timing, unanswered items, and confidence flags. This is practice, not an actual test administration; allow separately for setup and review.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Free LawHub account/sign-in. Select one of the four full tests marked free; LawHub Advantage is not required. Labels A–D in this plan are your own labels for different free tests, not official test numbers. If the chosen test was already attempted, record it as a familiar repeat, not an unseen diagnostic; no purchase is needed.

[] 03 / Day 3: blind review three priority items from familiar official test C

30 minutes

Success check: Before viewing the key, revisit three flagged items and write the supporting reasoning, plausible rival, and uncertainty. Record exact official item identifiers; this is review of the test already attempted.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

[] 04 / Day 4: compare official answers and close or retain the three review flags

30 minutes

Success check: Compare those same three items with official answer information available in the free account. Correct the reasoning log and retain unresolved questions for a later block; do not imply every item received deep review.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

Checkpoint

Week 9 totals 240 minutes. TestC is the third selected free full test and remains separate from the 155 site IDs first-passed so far.

If you need another pass

Carry text-support uncertainties into week 10. If testC is familiar, record that fact and use the review to analyse decisions rather than describe its result as an unseen diagnostic.

Complete reading inference and compare qualified viewpoints.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lsat/study-plan/#plan-12-week-10>

[] 01 / Day 1: all 24 reading-inference questions

60 minutes

Success check: Read all eight original short selections and label rejected choices by the specific unsupported change in scope or relationship.

Practice: 24 assigned original questions.

Lesson: [Infer carefully from the text](#)

[] 02 / Day 2: comparative lesson and 21 questions

65 minutes

Success check: Map agreement and extension in all seven pairs. Do not turn an unaddressed supplement into an explicit disagreement.

Practice: 21 assigned original questions.

Lesson: [Compare positions without exaggerating disagreement](#)

[] 03 / Day 3: reading workshop and two reconstructed comparisons

30 minutes

Success check: Read the 15-minute guide and use 15 minutes to reconstruct two comparisons from the texts without looking at the worked checks.

Illustrated guide: [Read for structure, scope, and qualified agreement](#)

[] 04 / Day 4: 5 inference/comparative cards plus 3 earlier mapping cards

20 minutes

Success check: First retrieve the five new fronts, then the three delayed mapping fronts; apply each distinction to a real listed selection.

Review: 8 assigned cards.

[] 05 / Day 5: free official Reading Comprehension drill and evidence log

35 minutes

Success check: Spend about half the block answering a manageable free Reading Comprehension drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsac.org/lSAT/prepare/types-lsat-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 06 / Day 6: complete-foundation checkpoint

30 minutes

Success check: Use nine familiar items to distinguish central point, supported inference and function. Confirm all 200 site IDs, 12 lessons, 40 cards and 3 guides have been assigned at least once.

Practice: 9 assigned original questions.

Checkpoint

The bounded site pool is complete. This is a foundation-coverage checklist only; no score conversion or official-content-completion claim is made.

If you need another pass

Use 20 minutes from week 11's 60-minute review to revisit the weakest of inference or comparison, using the relevant lesson and six logged site items. Preserve the full test block.

Use the fourth free official full test and prioritise remaining errors.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-12-week-11>

[] 01 / Day 1: official free PrepTest D, four sections plus the scheduled break

150 minutes

Success check: Work four 35-minute sections with a 10-minute break after section two: $140+10=150$ minutes. Do not inspect answers during the timed blocks. Record the actual test identifier, whether it was unseen, section timing, unanswered items, and confidence flags. This is practice, not an actual test administration; allow separately for setup and review.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Free LawHub account/sign-in. Select one of the four full tests marked free; LawHub Advantage is not required. Labels A–D in this plan are your own labels for different free tests, not official test numbers. If the chosen test was already attempted, record it as a familiar repeat, not an unseen diagnostic; no purchase is needed.

[] 02 / Day 2: blind review three priority items from familiar official test D

30 minutes

Success check: Before viewing the key, revisit three flagged items and write the supporting reasoning, plausible rival, and uncertainty. Record exact official item identifiers; this is review of the test already attempted.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

[] 03 / Day 3: compare official answers and close or retain the three review flags

30 minutes

Success check: Compare those same three items with official answer information available in the free account. Correct the reasoning log and retain unresolved questions for a later block; do not imply every item received deep review.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

[] 04 / Day 4: retrieve the first 20 familiar cards

10 minutes

Success check: Attempt each front before revealing the back; mark uncertain distinctions and record whether an application example is possible.

Review: 20 assigned cards.

[] 05 / Day 5: retrieve the remaining 20 familiar cards

10 minutes

Success check: Attempt each front before revealing the back; mark uncertain distinctions and record whether an application example is possible.

Review: 20 assigned cards.

[] 06 / Day 6: remaining-gap checkpoint

10 minutes

Success check: List the three least-secure distinctions and the exact site or official identifiers showing each gap. Choose the week 12 repair focus; this check is already included in the weekly 240 minutes.

Checkpoint

The plan has used at most four distinct free full tests A–D. It assumes no fifth unseen free test, and no paid expansion is required.

If you need another pass

In week 12 replace 20 minutes of the targeted repair block with the most frequent unresolved distinction. Repeating free material is acceptable review when labelled familiar; it does not create a new diagnostic.

Finish with delayed explanation, an original writing rehearsal and a sustainable next-step plan.

240 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lsat/study-plan/#plan-12-week-12>

[] 01 / Day 1: delayed reattempt — the evidence link and why a plausible rival fails, after a delay

60 minutes

Success check: Reattempt these 24 familiar items without opening the key, then write the evidence link and why a plausible rival fails, after a delay. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 24 assigned original questions.

Lesson: [Separate support from the conclusion](#)

Lesson: [Match the sample to the population](#)

Lesson: [Compare causal explanations](#)

Lesson: [Preserve necessary and sufficient conditions](#)

Lesson: [Control quantities and scope](#)

Lesson: [Test the relevant similarity](#)

Lesson: [Evaluate evidence rather than labels](#)

Lesson: [Match claim strength to evidence](#)

Lesson: [Expose the value and comparison in a recommendation](#)

Lesson: [Map a passage before collecting details](#)

Lesson: [Infer carefully from the text](#)

Lesson: [Compare positions without exaggerating disagreement](#)

[] 02 / Day 2: delayed reattempt — one repaired distinction rather than a memorized choice

40 minutes

Success check: Reattempt these 10 familiar items without opening the key, then write one repaired distinction rather than a memorized choice. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 10 assigned original questions.

Lesson: [Preserve necessary and sufficient conditions](#)

Lesson: [Compare causal explanations](#)

Lesson: [Control quantities and scope](#)

Lesson: [Infer carefully from the text](#)

Lesson: Compare positions without exaggerating disagreement

[] 03 / Day 3: original writing rehearsal A, not an official submission

65 minutes

Success check: Read the public writing guidance for 10 minutes; use original prompt A in this resource for 15 minutes of planning and 35 minutes of writing; spend 5 minutes checking the claim, counterargument and evidence links. Total $10+15+35+5=65$ minutes. This is an original rehearsal, not the registered/proctored writing assessment and not a scored essay.

<https://www.lsac.org/lSAT/about/lSAT-argumentative-writing>

Public official guidance; no account or subscription needed to read this page.

[] 04 / Day 4: final 40-card retrieval

20 minutes

Success check: Recall before revealing each back. For two uncertain fronts, create a new example and check its scope.

Review: 40 assigned cards.

[] 05 / Day 5: current official preparation and test-day guidance

20 minutes

Success check: Verify the relevant testing cycle and official preparation/checklist entry points. This task does not register, submit writing or purchase anything.

<https://www.lsac.org/lSAT/prepare>

Public official guidance; no account or subscription needed to read this page.

[] 06 / Day 6: exit log and continued-study decision

35 minutes

Success check: Use one familiar site question per skill to articulate unresolved errors, official-test familiarity, and next review dates. Judge the quality of explanations and actual test conditions; do not infer an official score from site accuracy.

Practice: 12 assigned original questions.

Checkpoint

All 240 minutes are assigned. Site retests and the original writing rehearsal remain distinct from authentic free PrepTests and the required official writing assessment.

If you need another pass

If gaps remain, keep the error log and continue targeted spaced review or seek qualified feedback. A twelve-week completion certificate is not promised, and completion is not evidence of a particular LSAT score.
