

LSAT Study Plan

8-week preparation route

Choose one schedule that fits your weekly time. Each combines the existing 12 lessons, 200 original foundation questions, 40 retrieval cards and 3 illustrated guides with free official LawHub practice. Work is assigned by day, with counted review time and specific checkpoints.

Version 2026-10-28 / Published 2026-10-28 / Free, no sign-up

Scope and review status

Original foundation planning for the current LSAT cycle through June 2027. Short site passages and linked teaching questions are not complete official tests; LawHub blocks use authentic free full tests. No score improvement, readiness or passing guarantee is made.

Author-checked ID/prerequisite references and exact schedule sums; independent agent review and learner validation are separate. Minutes are editorial estimates, not measured completion times.

Independent content review: peer checked. Qualified educator review: pending.

This is an original study resource, not an official examination, endorsement, score prediction or certification.

<https://openexam.site/exams/lsat/study-plan/>

Weekly study budget: 6 hours

- Protect 6 hours each week; weeks 1, 4, 7 include an uninterrupted 150-minute official-practice block and separate review.
- This plan spreads first-pass site work through week 6 and uses the remaining weeks for delayed retrieval and authentic transfer, not repeated claims of new coverage.
- Choose free tests A–C in one LawHub account. Each schedule is an alternative, not a requirement to complete all three durations; known tests remain labelled familiar.
- Day 7 is a rest or budget-neutral reschedule day. Estimates require adjustment for approved timing accommodations and actual learning pace.

Choose one duration

The three schedules are alternatives, not consecutive assignments. Choose the shorter plan only when its longer weekly blocks are realistic. Each week's final checkpoint is already part of the stated minutes. Day 7 is a rest day or a move of already budgeted work. Days without a listed task are rest or a budget-neutral move of already scheduled work; do not add another required session.

Plan	Weekly time	Total scheduled time	Official free full tests
4 weeks	8 hours /480 minutes	32 hours /1, 920 minutes	A in week 1;B in week 3;C in week 4
8 weeks	6 hours /360 minutes	48 hours /2, 880 minutes	A in week 1;B in week 4;C in week 7
12 weeks	4 hours /240 minutes	48 hours /2, 880 minutes	A in week 1;B in week 5;C in week 9;D in week 11

Use the correct cycle and the verified free route

For testing through June 2027, the multiple-choice LSAT has four 35-minute sections, with two scored Logical Reasoning sections, one scored Reading Comprehension section, and one unscored LR or RC section. A 10-minute intermission follows section two. Each practice-test block here counts 140 minutes of timed work plus that 10-minute break, not real-exam check-in, proctor re-entry, or device setup. Setup and review are separate tasks.

LSAC's official practice page lists four free full four-section PrepTests. Use a free LawHub account and choose tests marked free; a LawHub Advantage purchase is optional and not required by any schedule. Labels A–D are your own records for the chosen test identifiers, not invented official test numbers. If a test is already familiar, label it as a repeat rather than an unseen diagnostic. Free drill sets can also be revisited for a stated learning purpose.

LSAC has announced a format change from August 2027. These timing blocks are not that later format. If your planned test is August 2027 or later, check the linked official update before using this schedule. Approved timing accommodations likewise require recalculating blocks and weekly totals.

What the site task pool contains

All question, card, lesson and guide references point to existing LSAT objects. The 200 items are original foundation tasks: 131 LR and 69 RC, organized in 68 shared-stimulus teaching sets. Reading selections are shorter than full official passages, and several LR tasks deliberately reuse a stimulus to isolate different reasoning decisions. Completing this pool does not establish complete LSAT coverage.

Lesson	Prerequisite	Site questions	Cards
Separate support from the conclusion	None	9	4
Match the sample to the population	None	12	4
Compare causal explanations	structure	18	4
Preserve necessary and sufficient conditions	structure	17	4
Control quantities and scope	structure	21	4

Lesson	Prerequisite	Site questions	Cards
Test the relevant similarity	structure	6	3
Evaluate evidence rather than labels	structure	18	3
Match claim strength to evidence	structure	21	3
Expose the value and comparison in a recommendation	structure	9	3
Map a passage before collecting details	None	24	3
Infer carefully from the text	None	24	3
Compare positions without exaggerating disagreement	None	21	2

Use explanations and delayed retrieval

Before opening an explanation, record the item or official-test identifier, your choice, confidence, and the exact phrase or rule supporting it. After checking, distinguish a task-stem misread, premise/conclusion error, causal alternative, conditional reversal, quantity/scope error, unsupported reading inference, or timing decision. A correct guess and a justified answer should not be logged as the same event.

A reattempt is deliberately familiar. Its purpose is to reconstruct the reason after a delay, compare a plausible rival, or build a valid counterexample—not to manufacture a higher unseen-test score. Use official full tests separately to observe authentic presentation and stamina. Limited review blocks prioritize specified uncertainty flags; unresolved items stay on the log for the next review.

When a checkpoint reveals a gap, reallocate the stated minutes from review or drill time. Never silently shorten an official timed section or remove its break to make the schedule fit. If the available hours do not cover the needed repair, extend the calendar rather than call the gap mastered.

Original writing rehearsals

LSAT Argumentative Writing is a separate unscored requirement, not assessed by the site's multiple-choice pool. The official guidance describes 50 minutes for most test takers: 15 for analysis and 35 for writing. The following brief prompts are independently authored rehearsal material, not official LSAC prompts. A scheduled 65-minute writing task adds 10 minutes for public guidance and 5 for self-review; it does not submit the official assessment.

A university is considering a graduation requirement of 40 hours of community service. Perspective 1: Shared service can connect classroom learning with local needs and build civic responsibility. Perspective 2: Students who already work or provide family care may face an unequal burden from an unpaid requirement. Perspective 3: The university could support voluntary, paid or course-linked projects instead of mandating identical hours. Take a position on whether the university

should adopt the requirement. Address at least one competing perspective and explain the conditions or evidence relevant to your judgment.

Use 15 minutes to identify the central policy choice, underlying values and strongest counterargument.

Use 35 minutes to write a clear position with reasons, a fair response to another perspective, and any relevant qualification.

Use the final 5-minute self-review to mark the thesis, one evidence-to-claim connection, and one substantive response to a counterargument.

Answer: There is no single correct policy position. Check whether the reasons support the stated position, the competing view is represented fairly, and the conclusion preserves its own conditions.

A city must allocate a limited public grant between a new cultural center and flood-resilience improvements. Perspective 1: A cultural center could broaden participation and support local employment. Perspective 2: Reducing flood risk protects essential housing and services even if the benefits are less visible in an ordinary year. Perspective 3: Residents should have a meaningful role in deciding priorities, but expert risk information should constrain the choices offered. Take a position on how the city should make this allocation. Engage with a competing perspective and identify the tradeoffs and uncertainty that matter.

Use 15 minutes to distinguish the allocation decision, evidence about risk and competing public values.

Use 35 minutes to defend a position while addressing a serious alternative and its strongest reason.

Use 5 minutes to inspect whether your recommendation follows from your comparisons rather than merely listing benefits.

Answer: No official score or preferred allocation is supplied. A useful self-review checks the argument's support, treatment of the alternative, and acknowledgment of the relevant constraints.

Check progress without a score promise

Use the checklists to track completed work and the quality of explanations. Site accuracy cannot be converted into an official 120–180 score, and finishing a calendar does not establish readiness. Keep familiar-item results, authentic unseen-test results, writing rehearsals and the actual required writing assessment separate.

If your pace, access needs or unresolved errors differ from the assumptions, change the study calendar and record the new totals. The official sources govern test requirements and available free material; this resource supplies an original planning structure rather than official LSAC advice.

Orient to the official interface and learn argument roles and representative sampling.

360 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lsat/study-plan/#plan-8-week-1>

[] 01 / Day 1 A: current-cycle and free-account setup

20 minutes

Success check: Verify the through June 2027 format, sign into a free LawHub account and reserve free test identifiers A–C without reviewing answers.

<https://www.lsac.org/lsat/prepare>

Public official guidance; no account or subscription needed to read this page.

[] 02 / Day 1 B: official free PrepTest A, four sections plus the scheduled break

150 minutes

Success check: Work four 35-minute sections with a 10-minute break after section two: $140 + 10 = 150$ minutes. Do not inspect answers during the timed blocks. Record the actual test identifier, whether it was unseen, section timing, unanswered items, and confidence flags. This is practice, not an actual test administration; allow separately for setup and review.

<https://www.lsac.org/lsat/prepare/official-lsat-practice-tests>

Free LawHub account/sign-in. Select one of the four full tests marked free; LawHub Advantage is not required. Labels A–D in this plan are your own labels for different free tests, not official test numbers. If the chosen test was already attempted, record it as a familiar repeat, not an unseen diagnostic; no purchase is needed.

[] 03 / Day 2: blind review then explanation review of official PrepTest A

60 minutes

Success check: Before viewing the key, revisit the six highest-uncertainty or unfinished items and record your reasoning. Then compare with the official answer information available in your free account, note unresolved questions, and schedule them for a later review. Do not claim every test item received deep review in this limited block.

<https://www.lsac.org/lsat/prepare/official-lsat-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

[] 04 / Day 3: structure lesson and all 9 structure questions

35 minutes

Success check: Identify premises, an intermediate claim where relevant, and the main conclusion in every listed set.

Practice: 9 assigned original questions.

Lesson: [Separate support from the conclusion](#)

[] 05 / Day 4: sampling lesson and all 12 sampling questions

45 minutes

Success check: State sample, target population and selection process before deciding whether the generalization is supported.

Practice: 12 assigned original questions.

Lesson: [Match the sample to the population](#)

[] 06 / Day 5: 8 structure/sampling cards

15 minutes

Success check: Retrieve all eight fronts; give one population-mismatch example without copying the card back.

Review: 8 assigned cards.

[] 07 / Day 6: baseline log and first checkpoint

35 minutes

Success check: Reattempt these six familiar items. Separate a wrong conclusion identification from a weak-support judgment; carry two specific uncertainties into week 2.

Practice: 6 assigned original questions.

Checkpoint

First-pass site count: 21. Official baseline review focuses on uncertainty and method; it does not certify readiness.

If you need another pass

Replace 20 minutes of week 2 review with the structure lesson and Isat-022–Isat-027 if argument roles remain unclear. Preserve all timed sections.

Handle conditional direction and quantitative scope, with delayed retrieval of week 1.

360 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lsat/study-plan/#plan-8-week-2>

[] 01 / Day 1: conditional lesson and 17 questions

65 minutes

Success check: Translate the rule direction, identify necessary versus sufficient conditions and preserve permission versus obligation.

Practice: 17 assigned original questions.

Lesson: [Preserve necessary and sufficient conditions](#)

[] 02 / Day 2: quantifiers lesson and 21 questions

70 minutes

Success check: Keep denominator, group size and scope words explicit; write one numerical counterexample.

Practice: 21 assigned original questions.

Lesson: [Control quantities and scope](#)

[] 03 / Day 3: argument workshop and three worked contrasts

40 minutes

Success check: Read the 15-minute guide, then spend 25 minutes reconstructing three case explanations without viewing the solutions. These are familiar worked examples, not extra unseen questions.

Illustrated guide: [Find the missing connection: an argument workshop](#)

[] 04 / Day 4: delayed reattempt — a valid rule direction and the limit of each quantity claim

45 minutes

Success check: Reattempt these 12 familiar items without opening the key, then write a valid rule direction and the limit of each quantity claim. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 12 assigned original questions.

Lesson: [Separate support from the conclusion](#)

Lesson: [Match the sample to the population](#)

Lesson: [Preserve necessary and sufficient conditions](#)

Lesson: [Control quantities and scope](#)

[] 05 / Day 5: free official Logical Reasoning drill and evidence log

60 minutes

Success check: Spend about half the block answering a manageable free Logical Reasoning drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsac.org/lsat/prepare/types-lsat-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 06 / Day 6 A: 8 conditional/quantifier cards

25 minutes

Success check: Retrieve all fronts and annotate two errors as converse, inverse, count/share or overlap.

Review: 8 assigned cards.

[] 07 / Day 6 B: conditional-and-scope checkpoint

55 minutes

Success check: Use these ten familiar items to produce premise-consistent counterexamples and a count/share contrast. Explain the rejected rival; an answer-letter match is insufficient.

Practice: 10 assigned original questions.

Checkpoint

First-pass site count: 59. The final 55-minute task includes the checkpoint and error-log work; it is not additional time.

If you need another pass

If a counterexample violates a premise, replace 20 minutes of week 3 review/drill time with Isat-010–Isat-015 and Isat-130–Isat-131. Redraw the rule before retrying.

Distinguish alternative causes, evidence limits and practical significance.

360 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lsat/study-plan/#plan-8-week-3>

[] 01 / Day 1: causation lesson and 18 questions

75 minutes

Success check: For each set write one rival causal explanation and identify whether a new fact weakens or strengthens the actual conclusion.

Practice: 18 assigned original questions.

Lesson: [Compare causal explanations](#)

[] 02 / Day 2: evidence lesson and 21 questions

80 minutes

Success check: Separate nonobservation from absence, statistical detectability from practical importance, and limited observations from certainty.

Practice: 21 assigned original questions.

Lesson: [Match claim strength to evidence](#)

[] 03 / Day 3: causal workshop and comparison notes

35 minutes

Success check: Read the guide and spend 20 minutes comparing a controlled observation with a self-selected comparison. State the remaining uncertainty.

Illustrated guide: [Compare explanations before choosing a cause](#)

[] 04 / Day 4: delayed reattempt — the strongest claim justified and one claim the evidence does not establish

45 minutes

Success check: Reattempt these 12 familiar items without opening the key, then write the strongest claim justified and one claim the evidence does not establish. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 12 assigned original questions.

Lesson: [Compare causal explanations](#)

Lesson: [Match claim strength to evidence](#)

[] 05 / Day 5: free official Logical Reasoning drill and evidence log

55 minutes

Success check: Spend about half the block answering a manageable free Logical Reasoning drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsac.org/lsat/prepare/types-lsat-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 06 / Day 6 A: 7 causation/evidence cards

25 minutes

Success check: Retrieve each distinction; construct one example with more than one possible cause.

Review: 7 assigned cards.

[] 07 / Day 6 B: causal-evidence checkpoint

45 minutes

Success check: For these familiar cases, distinguish an alternative explanation from disproof of every effect, and rewrite one universal conclusion more modestly.

Practice: 8 assigned original questions.

Checkpoint

First-pass site count: 98. Judge explanation quality separately from familiarity with the scenario.

If you need another pass

If the direction of effect is confused, substitute 20 minutes of week 4 review with Isat-004–Isat-009. If detection conditions are ignored, use Isat-049–Isat-051 and the evidence lesson.

Map short reading passages and compare a second official full test.

360 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-8-week-4>

[] 01 / Day 1: passage-map lesson and 24 questions

60 minutes

Success check: Map eight original short selections and distinguish central claims from true supporting details.

Practice: 24 assigned original questions.

Lesson: [Map a passage before collecting details](#)

[] 02 / Day 2: reading-inference lesson and 24 questions

60 minutes

Success check: For eight short selections classify each rejected choice by the exact unsupported change in scope or relationship.

Practice: 24 assigned original questions.

Lesson: [Infer carefully from the text](#)

[] 03 / Day 3: 6 reading cards

15 minutes

Success check: Retrieve the map/inference distinctions and state what the text establishes without outside assumptions.

Review: 6 assigned cards.

[] 04 / Day 4: official free PrepTest B, four sections plus the scheduled break

150 minutes

Success check: Work four 35-minute sections with a 10-minute break after section two: $140+10=150$ minutes. Do not inspect answers during the timed blocks. Record the actual test identifier, whether it was unseen, section timing, unanswered items, and confidence flags. This is practice, not an actual test administration; allow separately for setup and review.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Free LawHub account/sign-in. Select one of the four full tests marked free; LawHub Advantage is not required. Labels A–D in this plan are your own labels for different free tests, not official test numbers. If the chosen test was already attempted, record it as a familiar repeat, not an unseen diagnostic; no purchase is needed.

[] 05 / Day 5: blind review then explanation review of official PrepTest B

60 minutes

Success check: Before viewing the key, revisit the six highest-uncertainty or unfinished items and record your reasoning. Then compare with the official answer information available in your free account, note unresolved questions, and schedule them for a later review. Do not claim every test item received deep review in this limited block.

<https://www.lsac.org/lsat/prepare/official-lsat-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

[] 06 / Day 6: reading-and-test checkpoint

15 minutes

Success check: Reattempt four familiar items and compare their short-passage demands with the official test's longer reading. Identify one pacing adjustment to practise next.

Practice: 4 assigned original questions.

Checkpoint

First-pass site count: 146. Short site selections are not a substitute for authentic long passages, so record official RC observations separately.

If you need another pass

If the map omits the author's qualification, use 20 minutes from week 5 review to reread passage-map and Isat-132–Isat-137. Do not turn the official full test into a shorter task.

Evaluate analogy, credibility and policy comparisons; retain the existing LR foundations.

360 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-8-week-5>

[] 01 / Day 1: analogy lesson and 6 questions

50 minutes

Success check: Name one similarity or difference relevant to the mechanism rather than a superficial similarity.

Practice: 6 assigned original questions.

Lesson: [Test the relevant similarity](#)

[] 02 / Day 2: evaluation lesson and 18 questions

70 minutes

Success check: Distinguish expertise, motive, circular support and origin from evidence about the claim itself.

Practice: 18 assigned original questions.

Lesson: [Evaluate evidence rather than labels](#)

[] 03 / Day 3: policy lesson and 9 questions

55 minutes

Success check: For each recommendation identify the objective, alternatives and cost or value premise needed.

Practice: 9 assigned original questions.

Lesson: [Expose the value and comparison in a recommendation](#)

[] 04 / Day 4: re-read the argument workshop for comparison across policy and conditions

30 minutes

Success check: This is intentional guide reuse: compare a missing sufficient condition with a missing policy priority. Write a new contrast instead of rereading passively.

Illustrated guide: [Find the missing connection: an argument workshop](#)

[] 05 / Day 5: free official Logical Reasoning drill and evidence log

60 minutes

Success check: Spend about half the block answering a manageable free Logical Reasoning drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsac.org/lsat/prepare/types-lsat-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 06 / Day 6 A: 9 analogy/evaluation/policy cards

20 minutes

Success check: Retrieve all nine fronts and give a relevant versus irrelevant expertise example.

Review: 9 assigned cards.

[] 07 / Day 6 B: delayed reattempt — which new fact addresses the specific gap rather than merely sounding favorable

35 minutes

Success check: Reattempt these 9 familiar items without opening the key, then write which new fact addresses the specific gap rather than merely sounding favorable. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 9 assigned original questions.

Lesson: [Compare causal explanations](#)

Lesson: [Evaluate evidence rather than labels](#)

Lesson: [Expose the value and comparison in a recommendation](#)

[] 08 / Day 6 C: LR integration checkpoint

40 minutes

Success check: Explain the most plausible rival for each familiar item and distinguish evidence criticism from rejecting a person or source wholesale.

Practice: 8 assigned original questions.

Checkpoint

First-pass site count: 179; all 131 LR site questions have now been assigned. Official LR breadth remains larger than these teaching sets.

If you need another pass

Replace 20 minutes of week 6 review with analogy and Isat-028–Isat-030 if the proposed difference is irrelevant; use policy and Isat-076–Isat-081 if a recommendation's priority is unstated.

Complete paired reading and rehearse an original argumentative-writing task.

360 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-8-week-6>

[] 01 / Day 1: comparative lesson and 21 questions

60 minutes

Success check: Map agreement before qualification in all seven pairs. Do not infer disagreement from a position that the first author did not address.

Practice: 21 assigned original questions.

Lesson: [Compare positions without exaggerating disagreement](#)

[] 02 / Day 2: reading workshop and text-to-choice checks

40 minutes

Success check: Read the 15-minute guide and use 25 minutes to justify three relationships from the text before viewing worked checks.

Illustrated guide: [Read for structure, scope, and qualified agreement](#)

[] 03 / Day 3: free official Reading Comprehension drill and evidence log

60 minutes

Success check: Spend about half the block answering a manageable free Reading Comprehension drill, then the rest explaining the support for choices and why a plausible rival fails. Record the drill identifier and whether it was fresh or repeated; unfinished explanations carry into the next review block.

<https://www.lsac.org/lSAT/prepare/types-lSAT-questions/reading-comprehension>

Free LawHub account/sign-in; use a drill set marked free. Do not buy additional tests for this task. A previously completed free drill may be repeated to practise the stated reasoning goal; mark it as familiar.

[] 04 / Day 4 A: delayed reattempt — a precise rule or textual support rather than a remembered answer

45 minutes

Success check: Reattempt these 12 familiar items without opening the key, then write a precise rule or textual support rather than a remembered answer. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 12 assigned original questions.

Lesson: [Preserve necessary and sufficient conditions](#)

Lesson: [Control quantities and scope](#)

Lesson: [Infer carefully from the text](#)

[] 05 / Day 4 B: original writing rehearsal A, not an official submission

65 minutes

Success check: Read the public writing guidance for 10 minutes; use original prompt A in this resource for 15 minutes of planning and 35 minutes of writing; spend 5 minutes checking the claim, counterargument and evidence links. Total $10+15+35+5=65$ minutes. This is an original rehearsal, not the registered/proctored writing assessment and not a scored essay.

<https://www.lsac.org/lsat/about/lsat-argumentative-writing>

Public official guidance; no account or subscription needed to read this page.

[] 06 / Day 5: 2 comparative cards plus uncertain earlier fronts

20 minutes

Success check: First retrieve both comparative cards; then revisit the listed conditional/inference cards after the delay. Explain why extension is not automatically rejection.

Review: 9 assigned cards.

[] 07 / Day 6: complete-pool audit and learning checkpoint

70 minutes

Success check: Reattempt 24 familiar questions, two per skill. For each error or uncertainty record the task type, evidence, rejected rival and next repair. Confirm that all 200 site IDs and all 40 cards have a first attempt; do not treat this as complete LSAT coverage.

Practice: 24 assigned original questions.

Checkpoint

All 200 questions, 12 lessons, 40 cards and 3 guides have been assigned. The 70-minute final task contains the audit and checkpoint; no extra block is implied.

If you need another pass

Use the first 20 minutes of week 7's targeted-review block for the two most frequent error categories and six corresponding familiar IDs. Keep testC unseen if available and do not inspect its key in advance.

Assess transfer on a third free official test and repair the highest-impact errors.

360 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lSAT/study-plan/#plan-8-week-7>

[] 01 / Day 1: official free PrepTest C, four sections plus the scheduled break

150 minutes

Success check: Work four 35-minute sections with a 10-minute break after section two: $140+10=150$ minutes. Do not inspect answers during the timed blocks. Record the actual test identifier, whether it was unseen, section timing, unanswered items, and confidence flags. This is practice, not an actual test administration; allow separately for setup and review.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Free LawHub account/sign-in. Select one of the four full tests marked free; LawHub Advantage is not required. Labels A–D in this plan are your own labels for different free tests, not official test numbers. If the chosen test was already attempted, record it as a familiar repeat, not an unseen diagnostic; no purchase is needed.

[] 02 / Day 2: blind review then explanation review of official PrepTest C

90 minutes

Success check: Before viewing the key, revisit the six highest-uncertainty or unfinished items and record your reasoning. Then compare with the official answer information available in your free account, note unresolved questions, and schedule them for a later review. Do not claim every test item received deep review in this limited block.

<https://www.lsac.org/lSAT/prepare/official-lSAT-practice-tests>

Use the same free test already attempted; no additional test or subscription is required.

[] 03 / Day 3: delayed reattempt — one source of uncertainty and a stronger explanation than in the original attempt

60 minutes

Success check: Reattempt these 18 familiar items without opening the key, then write one source of uncertainty and a stronger explanation than in the original attempt. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 18 assigned original questions.

Lesson: [Separate support from the conclusion](#)

Lesson: [Match the sample to the population](#)

Lesson: [Compare causal explanations](#)

Lesson: [Preserve necessary and sufficient conditions](#)

Lesson: [Control quantities and scope](#)

Lesson: [Test the relevant similarity](#)

Lesson: Evaluate evidence rather than labels

Lesson: Match claim strength to evidence

Lesson: Expose the value and comparison in a recommendation

Lesson: Map a passage before collecting details

Lesson: Infer carefully from the text

Lesson: Compare positions without exaggerating disagreement

[] 04 / Day 4: all 40 cards after a longer gap

20 minutes

Success check: Retrieve every front and mark whether the distinction can be applied to a new self-created example, not just recited.

Review: 40 assigned cards.

[] 05 / Day 5: compare official test conditions and timing flags

20 minutes

Success check: Compare tests A–C only after recording actual familiarity and timing conditions. Separate long-passage, decision-process and pacing observations from familiar-site results.

<https://www.lsac.org/lSAT/prepare/official-lsat-practice-tests>

Review the same free tests A–C; no new test purchase is required.

[] 06 / Day 6: choose three official uncertainties and link a repair

20 minutes

Success check: Name three official item identifiers that remain uncertain. Link each to a site skill where useful and state where the site task is simpler than the authentic question.

<https://www.lsac.org/lSAT/prepare/official-lsat-practice-tests>

Review the same free tests A–C; no new test purchase is required.

Checkpoint

The 360 minutes include the full test, 90-minute review and 40-minute checkpoint. Progress claims depend on authentic task conditions, not changes in familiar-site accuracy.

If you need another pass

If a pattern is unresolved, replace 20 minutes of week 8's first review block with the relevant lesson and six specific logged items. A familiar test repeated under a timer remains review, not a fresh diagnostic.

Consolidate delayed retrieval, practise writing again and plan next steps without a score promise.

360 minutes of planned tasks this week. Adjust the timing if your starting point or available time differs.

Find the exact assigned practice and review links for this week:

<https://openexam.site/exams/lsat/study-plan/#plan-8-week-8>

[] 01 / Day 1: delayed reattempt — the evidence for the answer and why one plausible distractor fails

60 minutes

Success check: Reattempt these 24 familiar items without opening the key, then write the evidence for the answer and why one plausible distractor fails. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 24 assigned original questions.

Lesson: Separate support from the conclusion

Lesson: Match the sample to the population

Lesson: Compare causal explanations

Lesson: Preserve necessary and sufficient conditions

Lesson: Control quantities and scope

Lesson: Test the relevant similarity

Lesson: Evaluate evidence rather than labels

Lesson: Match claim strength to evidence

Lesson: Expose the value and comparison in a recommendation

Lesson: Map a passage before collecting details

Lesson: Infer carefully from the text

Lesson: Compare positions without exaggerating disagreement

[] 02 / Day 2: delayed reattempt — a repaired rule or passage interpretation after the delay

60 minutes

Success check: Reattempt these 15 familiar items without opening the key, then write a repaired rule or passage interpretation after the delay. State what evidence changed or confirmed your earlier reasoning. Recognition of a remembered answer is not evidence of unseen-test improvement.

Practice: 15 assigned original questions.

Lesson: Preserve necessary and sufficient conditions

Lesson: Compare causal explanations

Lesson: Match claim strength to evidence

Lesson: Infer carefully from the text

Lesson: Compare positions without exaggerating disagreement

[] 03 / Day 3: one familiar official section, then timing review

60 minutes

Success check: Spend 35 minutes reattempting one known section, then 25 minutes comparing your decision process and timing flags. Mark the material familiar and do not use its score as new evidence of unseen-test performance.

<https://www.lsac.org/lSAT/prepare/official-lsat-practice-tests>

Use a section of free testC already completed. Do not unlock or buy additional material.

[] 04 / Day 4: original writing rehearsal B, not an official submission

65 minutes

Success check: Read the public writing guidance for 10 minutes; use original prompt B in this resource for 15 minutes of planning and 35 minutes of writing; spend 5 minutes checking the claim, counterargument and evidence links. Total $10+15+35+5=65$ minutes. This is an original rehearsal, not the registered/proctored writing assessment and not a scored essay.

<https://www.lsac.org/lSAT/about/lSAT-argumentative-writing>

Public official guidance; no account or subscription needed to read this page.

[] 05 / Day 5 A: all 40-card exit retrieval

25 minutes

Success check: Recall before revealing; write new examples for two distinctions that remain uncertain.

Review: 40 assigned cards.

[] 06 / Day 5 B: official test-day checklist and cycle check

25 minutes

Success check: Check the current official checklist, ID/interface expectations, and your testing cycle. This is reading and planning only, not registration or a proctored submission.

<https://www.lsac.org/lSAT/prepare>

Public official guidance; no account or subscription needed to read this page.

[] 07 / Day 6: final error-log and next-study plan

65 minutes

Success check: Use one familiar question per skill to explain remaining strengths and gaps. List which authentic free resources remain unused, any accommodation-related timing changes, and the next review dates. Do not translate local accuracy into an LSAT score or a guarantee of readiness.

Practice: 12 assigned original questions.

Checkpoint

Week 8 remains 360 minutes. The final known-section repeat is deliberate timing analysis, and the original essay is a rehearsal rather than the official writing requirement.

If you need another pass

If substantial gaps remain, continue the 12-week-style spacing or seek appropriately qualified help. Reuse free material transparently rather than implying that a paid subscription is necessary to complete this schedule.
